

## LIST OF TABLES

1.	Natural communities of the lower Roanoke River Basin, North Carolina.....	12
2.	North Carolina and global rankings of contiguous bottomland and swamp forest communities .....	13
3.	Roanoke River minimum flows .....	27
4.	Roanoke River velocities and time of travel studies, Roanoke Rapids to Scotland Neck.....	29
5.	Roanoke River dye time of travel (in hours), Oak City (RM 60) to Plymouth at RM 10 .....	35
6.	NPDES point sources of discharge .....	45
7.	Description of monitoring stations used by the Division of Environmental Management on the Roanoke River .....	48
8.	Roanoke River monitoring data summary of the Division of Environmental Management, 1991 .....	50
9.	Roanoke River monitoring data summary of the Division of Environmental Management, 1992 .....	52
10.	Roanoke River monitoring data summary of the Division of Environmental Management, 1993 (January to June).....	54
11.	North Carolina Division of Environmental Management PCB data for fish collected from the Roanoke River at various locations.....	56
12.	Overwintering songbird and woodpecker abundance (mean number/station) in the lower Roanoke River floodplain, December 1992-February 1993 .....	65
13.	Roanoke River instream flow criteria (cfs) initially recommended by the Roanoke River Water Flow Committee.....	82
14.	Negotiated water flow regime (in cfs) for the Roanoke River below Roanoke Rapids Dam for the period 1 April to 15 June each year .....	82
15.	Proposed annual flow regime for the Roanoke River below Roanoke Rapids Dam .....	86
16.	Albemarle trimmed mean (ATM) data for all surface samples that are less than two standard deviations from the mean total population.....	95
17.	Concentrations of 15 trace elements for all surface samples and enrichment factors for all surface and deep samples collected in the lower Roanoke River .....	99
18.	Concentrations of 15 trace elements for all surface samples and enrichment factors for all surface and deep samples collected in Welch Creek.....	100
